

# TECHNICAL EDUCATION PROGRAMME

## Comprehensive Support for Career Development Professionals

The CDI has developed the Technical Education Programme, with the support of the Gatsby Charitable Foundation, to help career development professionals understand and feel confident in discussing the technical education pathways available to young people. A wealth of tailored information and resources is available to both CDI members and non-members.

- **Resource Hub →**  
Access information and resources on apprenticeships, T Levels, Higher Technical Qualifications (HTQs), and qualifications reform
- **Tailored resources →**

Participate in hands-on workshops exploring technical education pathways and contribute to the development of future resources
- **Dedicated support →**  
Connect with a point of contact for queries related to technical education pathways

***Empower yourself with the latest insights and opportunities in technical education.***

# **NEW:** Technical Education Resource Hub

We have recently launched the CDI Technical Education Resource Hub. The hub provides information and resources for careers professionals, supporting them to keep up to date on apprenticeships, T Levels and Higher Technical Qualifications (HTQs) and qualifications reform in this area.

The resource hub has been created to ensure there is a central point to find everything you need to feel confident when advising young people on this area.

Supported by the Gatsby Charitable Foundation, the resource hub is managed and updated by the CDI.

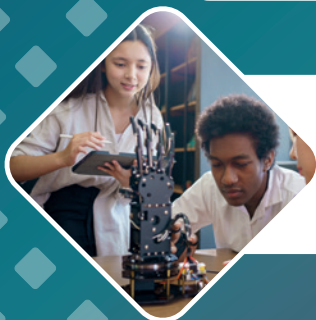

## ← Apprenticeships

The latest information on Apprenticeships: where to find them, how to support students and recent changes at policy level.

## Higher Technical Qualifications →

What are Higher Technical Qualifications (HTQs), who are they aimed at and where are they delivered?

## ← T Levels

The latest information on T Levels: who are they aimed at, what do they involve, who delivers them plus updates on recent changes in policy.

## Qualifications Reform →

Updates on the latest information on technical education qualifications reform at Level 3 and below.
