

AI in Careers

LIGHTNING CONFERENCE

Wednesday 29 April
9.30 am | Online

Delivered in
partnership with

**BOOK
NOW**

Join careers professionals, educators, policy voices and digital innovators for a fast-paced online conference exploring how AI is reshaping careers work. Expect high-impact lightning talks, focused discussions, practical insights and real-world examples you can apply in your own setting.

Theme: AI in Careers

- Ethical, safe and responsible use of AI
- The evolving role of the careers professional in an AI-enabled landscape
- Building digital confidence and practitioner capability
- Practical use cases for guidance, education, employability and progression
- Designing AI tools and services that support users effectively and inclusively
- What "good" looks like for quality, transparency, equity and impact

About the speaking opportunity

Opportunity to give a 5-minute 'sponsor's welcome' address to the audience, allowing you to introduce your organisation, position yourselves as the experts in your field, share valuable key messages and connect directly with potential customers.
