

# Empowering educators

Free professional development for teachers, SENCOs, SEND staff and the wider education workforce

Explore The Careers & Enterprise Company's free library of short online training courses:

## For teachers:

- **Understanding career pathways:** familiarise yourself with the range of academic and vocational routes available.
- **Careers in the curriculum awareness:** discover more ways to connect your existing curriculum to the world of work.

## For SENCOs and SEND staff:

- **Understanding pathways and career opportunities:** establish how your existing work can help young people to make informed choices about their future.

## For the wider education workforce:

- **Careers conversations:** develop the confidence and knowledge to initiate meaningful careers conversations.

**The Careers & Enterprise Company (CEC) is the national body for careers education in England. We work with schools, colleges, and employers to help every young person find their best next step.**

Visit the CEC website for careers education news, reports, and guidance. You can also access our [Resource Directory](#), featuring over 400 carefully curated resources. Find the tools you need to plan, grow, and make a difference to careers education in your setting.
