

WE HELP SCHOOLS CREATE OPPORTUNITIES AT SCALE.

Every Careers Leader wants the same thing.
More opportunities for young people.

More opportunities to explore careers.

More opportunities to experience the workplace.

More opportunities to engage with employers.

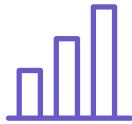

More opportunities to build confidence, aspiration and direction.

The challenge is that creating opportunities takes time.
Finding employers. Building relationships. Maintaining engagement.
Creating placements. Supporting students.
And whilst schools continue to do incredible work, expectations continue to grow.

More students.

More employer engagement.

More work experience.

More support for vulnerable learners.

The question is no longer whether opportunities matter.
The question is how schools can create enough of them to meet the needs of every student.

That is where we can help.

EMPLOYER ENGAGEMENT

EXPERIENCES OF THE WORKPLACE

WORK EXPERIENCE

PERSONAL GUIDANCE

NEET PREVENTION

TECHNOLOGY & REPORTING

OUR INFRASTRUCTURE CREATES MORE OPPORTUNITIES FOR EVERY STUDENT

THE INFRASTRUCTURE BEHIND THE OPPORTUNITIES

For nearly 20 years, we have been building the infrastructure that allows schools to create opportunities at scale.

Today, we work with around

130,000 EMPLOYERS

across the UK.

That network continues to grow every day.

This is not simply a database.

This is an active employer engagement infrastructure.

Built through years of relationship building, opportunity creation and operational delivery.

ARE YOU STILL BUILDING EMPLOYER ENGAGEMENT ONE EMPLOYER AT A TIME?

HOW WE HELP SCHOOLS CREATE OPPORTUNITIES AT SCALE.

Because we have the relationships, experience, delivery teams and technology already in place, schools can access support in the areas where they need it most.

EMPLOYER ENGAGEMENT

Building sustainable employer relationships that create long-term value for students, schools and local communities.

EXPERIENCES OF THE WORKPLACE

Providing regular, meaningful exposure to the world of work before students make important education and career decisions.

WORK EXPERIENCE PLACEMENT SOURCING

Helping schools provide meaningful opportunities for students without carrying the full sourcing burden internally.

PERSONAL GUIDANCE

Delivering CIAG through experienced and qualified professionals who help students make informed decisions about their future.

NEET AVOIDANCE PROGRAMME

Supporting students who need additional intervention, confidence and direction before disengagement becomes a long-term issue.

RISK MANAGEMENT AND COMPLIANCE

Reducing administrative pressure whilst maintaining high standards of safeguarding, oversight and compliance.

TECHNOLOGY AND REPORTING

Providing the systems, visibility and insight needed to support modern careers and work experience delivery, for everyone involved.

- Some schools work with us for placement sourcing
- Some work with us for employer engagement
- Some commission personal guidance
- Some need targeted support for students at risk of becoming NEET
- Some use our technology
- Others choose a fully connected approach that brings everything together

Every route creates more opportunities for young people

YOU DO NOT HAVE TO BUILD THIS ALONE.

Planning for September 2026?

Let's talk about how we can help you create more opportunities for your students without adding pressure to your team.

THIS IS NOT ABOUT INDIVIDUAL SERVICES.

Most organisations provide individual services.

We have built an ecosystem.

An ecosystem designed to help schools create opportunities at scale.

Employer engagement creates opportunities

Opportunities create experiences

Experiences build confidence

Confidence supports progression

Technology improves visibility

Operational support increases capacity

Everything connects. And when everything connects, you can achieve more.
