- Higher Education Institution (HEI) monitored and supported by Office for Students (OfS)
- academy or free school registered with ESFA

FH-2: If you answered 'Yes' to question FH-1, what class of organisation are you?

Please select the appropriate option from the drop-down list.

FH-3: Is your annual turnover above £75 million and your total funding from the ESFA expected to be no more than 5% of your annual turnover?

If you meet the criteria, you will only need to submit full financial statements. We will review this to confirm you are out of scope of the rest of the financial checks. If upon review, your financial statements do not meet the required criteria of £75M annual turnover and ESFA funding is no more than 5% of your annual turnover, it may impact on the outcome of your application, and you will be subject to a full financial health assessment.

FH-4: What financial evidence are you providing?

If you are applying to the main and employer route, you must provide full financial statements. If applicable they should be signed and filed with either Companies House or the Charity Commission. They cannot be abbreviated or filleted accounts or for a micro entity.

If your financial statements cover less than 12 months, you must supplement them with management accounts from the end of the financial statements period, to the day before the date of your application. They cannot be abbreviated or filleted accounts or for a micro entity. If you do not provide both the financial statements and management accounts, you will get an inadequate financial health grade.

We will not consider alternative financial information for the main and employer route other than what is stated in the above two paragraphs.

If you are applying to the supporting route and have not traded long enough to produce financial statements, you must provide management accounts covering a minimum period of 3 months showing you are actively trading. If your management accounts cover a period less than 12 months, you must supplement them with forecast information for the remaining period. This must total to a 12-month period.

We will only accept management accounts and financial forecasts for the supporting route where financial statements are yet to be produced. If financial statements have been produced these must be submitted and meet the minimum requirements as stated in this section.

For all routes, financial statements, management accounts and forecast information must be full submissions including all pages. They must include as a minimum a profit and loss account, balance sheet, detailed notes on the accounts, and a breakdown of creditors and borrowings. If you are only providing final and signed financial statements covering a 12-month period, do not provide management accounts as they will not be reviewed or taken into consideration.

'Financial statements' is a term used that covers limited companies, unlimited companies, limited liability partnerships, sole traders, charities and partnerships. For example, partnership accounts.

FH-5: If you are required to provide financial statements in question FH-4, have they been submitted to Companies House or the Charity Commission?

Your financial statements must be submitted to Companies House or the Charity Commission. If they are not, we may reject your application.

FH-6: What is the accounting reference date for the financial information being submitted?

Your accounting reference date is detailed on your financial statements for the year or period end.

You must upload the most recent set of financial evidence that matches your answer to questions FH-4 and FH-6.

We will review this information against any previous applications to ensure consistency and accuracy.

7.1 Evaluation and feedback

Assessment process

ESFA will begin to assess applications on the first working day of each month for any applications received during the previous month. We expect the application assessment process to take approximately 12 weeks however this may take longer during busy periods.

Your application will be reviewed by our team of assessors for:

- financial health (section 7.1.1)
- due diligence (section 7.1.2)
- readiness and quality (section 7.1.3)

The **readiness and quality section** of the application will be assessed using a two-person, two-step process (the “Consensus Marking Procedure”).

This comprises of:

1. independent evaluation by two individuals; and
2. pair consensuses marking.

Each assessor will separately (that is, without conferring with other assessors) scrutinise the quality of answers given in each application.

Each assessor will:

- apply the criteria applicable to the relevant question as set out in the application guidance to determine the overall quality of each answer.
- give a pass/fail mark for each question depending on the detail and quality of the answer provided.
- provide a justification for the pass / fail mark given.

All of the evaluators’ marks and related justifications will be recorded separately.

When the independent evaluation exercise has been completed, a pair consensus marking exercise will be coordinated.

They will review each other’s allocated pass/fail marks and identify if they have made any different judgements. Where there is a difference in judgement they will:

- discuss the quality of the answers given to a question and review their justification for attributing the pass/fail marks having regard to the guidance and answers provided.
- attempt to reach a consensus regarding the pass/fail mark that should be attributed to each question. Should it not be possible to reach a consensus

an independent moderator will review the question and determine the outcome

- record the pass/fail mark and the combined comments, which will form the text for the feedback response.

A percentage of the assessment results will be quality assured to ensure accurate pass/fail marking and feedback are consistent and in line with the published guidance.

Deciding the outcome of your application

You must pass every question in order for your application to be successful.

When reviewing your application we will consider the extent to which points in each question are covered by your answer. We will review your whole application when making decisions. We will not look at answers in isolation meaning we will consider evidence from answers to other questions. If information or documents are insufficient or are not appropriate for apprenticeships then your application may be determined to be unsuccessful.

Clarifications

We may ask for more information or clarification to determine the outcome of your application. You will have 5 working days to provide the information/clarification. If you do not comply within the deadline your application may be unsuccessful.

Application outcome

We will let you know the outcome of your application through the Bravo messaging board. We will send a notification to the email address provided on your application.

We may share your application with other parts of the DfE to safeguard public funds and minimise risk.

If your application is determined to be unsuccessful, we will tell you why in writing. You may re-apply once within a 12-month period of your original application.

Providers who are currently listed on the ROATP, as a result of meeting previous application requirements (those published prior to December 2018), must refer to the published market exit policy to understand the implications of an unsuccessful application.

If your application is successful, we will tell you what your next steps are.

7.1.1 Financial health outcome

The outcome of our assessment will be one of the financial health grades set out below. We calculate this from the information we ask you to supply.

- Outstanding: you have robust finances, can fulfil your contractual obligations and will be able to respond to opportunities and adverse circumstances
- Good: you have sufficiently robust finances, can fulfil your contractual obligations and will be able to respond to most opportunities and adverse circumstances
- Satisfactory: you have enough resources to fulfil your contractual obligations but have limited capacity to respond to opportunities and adverse circumstances
- Inadequate: you are in financial difficulty, are likely to require additional financial support and you pose a significant risk in fulfilling your contractual obligations

An “inadequate” grade may fail your application.

You may be awarded an exempt grade where we consider this appropriate. Please refer to FH-1 to FH-3 where exemption is detailed.

We reserve the right to review any initial financial grade. Additional information which might trigger a review includes, but is not limited to:

- auditors have given your financial statements a qualified or adverse opinion, including recording an emphasis of matter
- your financial statements are overdue at Companies House or Charity Commission
- you have not submitted your latest signed financial statements to ESFA
- your group or ultimate UK parent’s financial position could have a significant impact on the financial health of your organisation
- your financial health is solely impacted by the deficit of a pension scheme under [FRS17](#), which reduces the levels of your reserves
- ESFA receives factual evidence outside of your financial statements that has a significant impact on your financial health. For example, cessation of your organisation, recall of debt by a bank or a court ruling that has financial consequences - the impact would have to change your initial grade for it to be considered significant
- your organisation’s financial health, in an isolated year, is calculated as inadequate solely due to making a distribution of a number of years' accumulated profits through a dividend and we assess your underlying organisation as profitable
- if long-term borrowings are high but are predominantly and demonstrably secured on long-term fixed assets. For example, a mortgage on a property, if this significantly affects the financial health (by at least one grade) and finances suggest that sufficient cash is being generated to cover the associated repayments, we may moderate a calculated grade of ‘inadequate’ to ‘satisfactory’. For this to be considered we will need to be aware and informed of the value of such mortgages

- you will not be graded higher than “Satisfactory” if your organisation scores no points in any of the three ratios, profitability, solvency and gearing
- we will grade your financial health as inadequate if Companies House shows your organisation has entered liquidation, insolvency, a Company Voluntary Arrangement (CVA), or become dormant
- you fail to submit your latest complete management accounts as required, containing all information specified. If we identify errors, or are unable to confirm their accuracy, this may result in an inadequate grade being awarded
- if we are unable to verify the period of actively trading, or we identify contrary information to your application
- we will not grade higher than satisfactory if your organisation is only able to supply management accounts and forecast information

If you are successful with your application, and you commence delivery either directly or indirectly, you may be required to submit additional financial information for scrutiny by the ESFA at any time. This information may consist of, but not be limited to, management accounts, financial forecasts and cash flow forecasts

7.1.2 Due diligence outcome

We carry out due diligence checks on organisations applying to the RoATP.

This includes checks on the legal status of your organisation, your management team and anyone with accountability for apprenticeships, as well as your responses to our declarations for criminal convictions and compliance. To do this we will use information we hold, as well information held in the public domain.

We need to know that you do not pose a risk to apprentices or use of government funding.

Your application may still be successful if you have a criminal record or history of non-compliance.

However, if you do have any convictions, warnings, cautions, community resolutions, absolute/conditional discharges, admonishments or charges awaiting trial, we will make our decision according to:

- whether the offence presents a risk to the safety of apprentices
- whether the offence presents a risk to the use of government funds
- the actual sentence or disposal given to you for the offence
- how recent the offence was

7.1.3 Readiness and quality outcome

We will assess your readiness and suitability to train apprentices using information provided in your application for capacity, capability, apprentice

welfare and engagement. We need to be satisfied that you do not pose a risk to apprentices through poor quality provision and welfare.

To do this we will confirm that:

- your management and training staff have experience of managing and delivering training to learners and are established within the sectors in which you intend to deliver. Only through experience can a provider understand the requirements of different employers and learners
- you have set high expectations of quality of training and have a process for both maintaining and improving this.
- you have a plan for the first 12 months of being on the RoATP that takes in to account the resources that exist within your organisation.
- you have policies and plans in place that meet the needs of apprenticeships and the welfare of apprentices. You must provide these where requested and ensure they meet the requirements shown in [section 6](#)
- you are ready to engage with employers or apprentices. You must have processes in place for the assessment of prior learning and delivery of English and maths, a clear understanding of how you will deliver the 20% OTJ training ensuring it meets requirements of the funding rules, as well as templates to contract with employers and learners. These must meet the requirements defined in [section 6](#)

7.2 Post application requirements (on-boarding)

Main providers will be contacted by our course directory team (Tribal) and provider management team to arrange what systems they need and schedule an early monitoring visit.

Employer providers will be contacted by a member of our account management team.

Existing main and employer providers will not be required to do the full on-boarding process.

7.3 Listed on the RoATP

Once you have completed the post application requirements (on-boarding) you will be approved to be listed on the RoATP.

We publish all new providers on the [register of apprenticeship training providers](#) regularly.

Once you are on the RoATP, depending on your application route, you will be able to provide apprenticeship training either as a main provider, employer provider or

supporting provider as applicable,. Your registration will clearly state the route for which you have been registered.

Main providers are also published on [find apprenticeship training \(FAT\)](#).

Being on the RoATP does not mean we recommend your organisation and is not a 'kite mark' or an award. You will not receive an identification number for the RoATP.

7.4 Make an appeal

If your application is unsuccessful and you believe the ESFA made an error in the assessment of your application, you have the right to appeal the outcome of your application on the following grounds:

- The ESFA has failed to follow its own policy and / or processes
- Failure by the ESFA to understand or recognise the evidence you submitted

You must submit your appeal in writing to roatp.APPEALS@education.gov.uk setting out the grounds for your appeal. As part of your appeal, you will not be able to submit additional information or evidence to demonstrate that matters have moved on and that you now meet our requirements. You must submit your appeal within 10 working days of the date of receipt of your application result and feedback on your application.

If your appeal is upheld and the outcome of your application changes as a result, you will be added to the Register of Apprenticeship Training Providers. If your appeal is not upheld, the original outcome of your application will stand. If you are an existing provider, this will mean that you will have been unsuccessful in your application to re-apply to the Register of Apprenticeship Training Providers. The ESFA may terminate any contract that you might have with it for the delivering of training to apprentices. We will aim to tell you the outcome of your appeal within 15 working days of us receiving your appeal. If it is not possible for us to fully respond to you within this time, we will let you know of the delay and the revised date for the outcome to be issued.

There will be no further right of appeal.

7.5 Make a complaint

If you would like to make a complaint, please refer to ESFA's [complaints procedure](#).
